

Rotarians Raise Awareness & Actions Aid With Padman

By Ravneet Sehmi

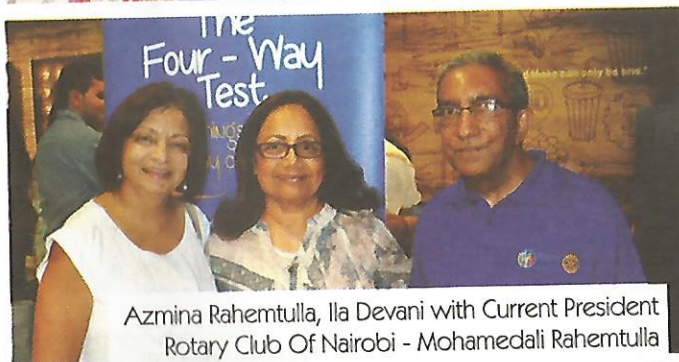

Officials of Rotary Club of Nairobi

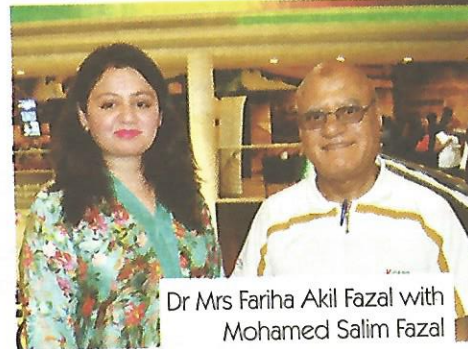

On February 10, friends, club members, well-wishers and associates of Rotary Club of Nairobi gathered for a cocktail and canapés at the film screening of Padman, all in the name of philanthropy and passion. This was the first film screening project in the past three years.

Eager to watch the much-awaited film starring Akshay Kumar, Sonam Kapoor, Radhika Apte and directed by R Balki, guests trickled in starting from 5.00pm at the Westgate Cinemas and were warmly welcomed by Rotary Club of Nairobi officials.

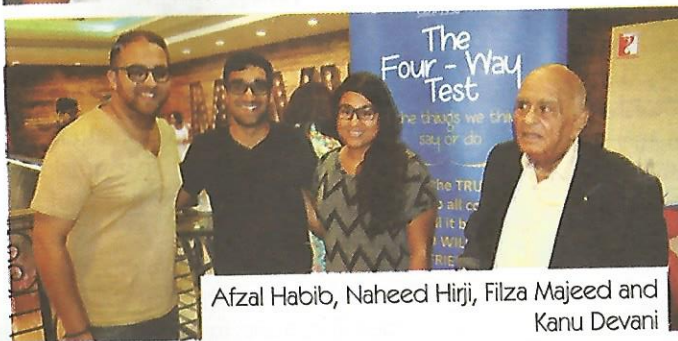

"Padman is a movie about an individual who was/ is passionate about a cause - health and hygiene. In the same breadth, Rotary Club of Nairobi carries out several projects, and clean water and sanitation are one of their six areas of focus. Rotary Club of Nairobi in collaboration with Rotaract Club of Nairobi Central and HEART foundation have over the years carried out sanitary pad project called , 'A GIRL A K' which translates to providing a school-going girl with a year's supply of sanitary pads for Kshs 1,000. So far that particular project has allowed over 4,300 girls have a full year's supply of sanitary pads and to attend school," read a press statement from the Club. The film was aptly shown, drawing viewers to realise and understand the critical need for clean water and sanitation in Kenya and all over the world. The Rotary Club of Nairobi surplus proceeds from the film will be directed toward a sanitation/ablution block to be made at Jamhuri Primary School. Before and during the interval, visuals of the Club's numerous projects were shown, thereby raising awareness of their work and the need for all to contribute to the less fortunate of society.
